## ISRAEL

We continue advertising the Hebrew Bible Companion app, and enjoying correspondence with various folks in Israel. They are nearly all male Orthodox Jews, who have already come to a secret conviction that Jesus is Messiah. And they find our take on doctrine very appealing. But they are very enmeshed in the Orthodox community, and all have expressed the feeling they cannot continue in that- despite being assured by us that they see no reason why they can't continue quietly attending the synagogue. Some have told us that as Ultra Orthodox Jews, they aren't supposed to have smartphones or download apps, watch YouTube etc. So the very fact they're in contact is evidence enough that they are thinking well outside the box of where they are supposed to be. Many are excused army service because of their Ultra Orthodox allegiance, are married into the community and have young children. It's really a very hard choice for them, and so far none have been willing to risk it [as they see it]. So let's keep praying that some will be overpowered by the work of their Messiah that they do...

There are currently 1500 users of the Hebrew app, most of them in Israel. Thanks to paid advertising, about 30 people download the app / day, many delete it soon after, but slowly the number of total users rises every day. Some retain it- and use it regularly. Our videos advertising the app have been viewed nearly 300,000 times within Israel. The native Hebrew speaking population of Israel is only about 6 million in total. So we are making a slow but steady impact. Do pray for our efforts.

## UKRAINE

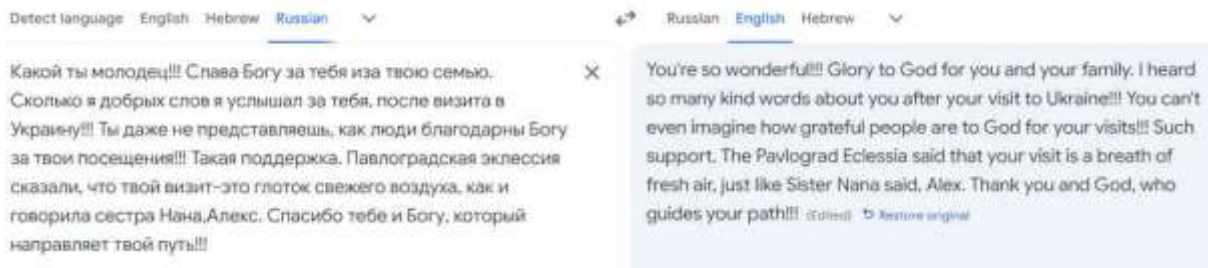

We continue providing help to our brothers and sisters and groups in Ukraine, and plan a brief visit to southern Ukraine soon, Lord willing. Appreciation for help provided is really very touching:

Detect language English Hebrew Russian

Russian English Hebrew

Ещё раз благодарен за визиты в Украину! Теперь братья и сестры видят разницу между христианством и организацией. Такую любовь и признание тебе все с кем я на связи я ещё не слышал. Пусть Бог благословит тебя и твою семью.

Thank you again for your visits to Ukraine! Now the brothers and sisters see the difference between Christianity and organization. I've never heard such love and recognition from everyone I've been in touch with. May God bless you and your family.

Our outreach to Jewish folks in Ukraine continues, and we invite prayer for Natalya, who has decided to be baptized and accept Jesus as her Messiah. We hope to get to her in the next 2 weeks, Lord willing. All things related to Ukraine are so difficult and we appreciate your prayers.

UK

This week we made another visit to Wales to baptize a group of family and friends who have come to the Gospel thanks to the witness of a newly baptized brother there. One thing about "Life on a council estate" is that once a couple of people in a family / friendship group get baptized, the good news spreads easily and quickly. There's nothing quite like "Life on a council estate". And so we arranged to meet up with our friends and brethren near a river just outside Pontardawe. Some arrived in the back of brother Rich's van, sitting on his tools for seating... and we had a truly blessed time baptizing JASON, SHEREE, SEREN and JEN. There was not a cloud in the sky and it was the hottest day of the year so far... but the water was truly cold, and took quite some endurance:

We drove back to the town and bought them all back fish and chips for a celebration, rather like the loaves and fishes.

You can see plenty of NEV Bibles in use...

We gave a Bible study and baptism service on the river shore, with other folks listening respectfully. Quite a witness.

All an absolutely wonderful time, without doubt brought about only by the Lord working with our efforts. And again we marvel that all this started from folks following Pub Church in south London.

#### PRAYER POINTS

- For those recently baptized
- For our efforts to reach Israeli people with the Gospel
- For all the people weighing up hard choices involved in accepting Jesus as Lord and Saviour
- For our work in Ukraine, both of providing welfare and preaching the Gospel

With love from your brothers and sisters of Carelinks
